Important: Read all instructions carefully before completing form.

Type or print your information clearly. Submit your filing with the Customer Order Instruction Form and payment.

Select the type of entity you are creating at the top of the form. Follow the applicable instructions below.

1. Name of Entity

- Write the full legal name of your corporation exactly as you want it to appear in public records.
- **If you're forming a close corporation**, make sure the words "Close Corporation" appear in the name.
- If your corporation name sounds like a person's name, such as one with a first name or initials, you must add a corporate ending like "Inc.," "Corp.," "Ltd.," or a similar term to show it is a business, not a person.
- **If you are an NRS 89 (also known as a Professional Corporation)**: The name must include the last name of one or more current or past stockholders. It must also include terms like "Professional Corporation," "P.C.," "Chartered," or "Ltd."
- If your corporation is from another state or country and its name isn't available in Nevada, you can still register to do business. To do this, submit a Modified Name Resolution form with your Qualification to Do Business in Nevada Form. This form allows you to choose a different (modified) name to use when conducting business in Nevada.

2. Jurisdiction of Incorporation (if applicable) Write the jurisdiction where your corporation was originally formed. Check the box to declare your business is in good standing.

Additional Information

Formation

You must submit an Initial List and State Business License Application and associated filing fees with your formation filing. The Initial List fee is \$150.00. The State Business License fee is \$500.00.

Annual List

If the Nevada Secretary of State does not receive your list or we cannot file it by the due date, due to form errors, you will owe a \$75 late fee. **Please note:** postmarking your filing before the due date will not prevent late fees.

If you submit your annual list more than 90 days before the due date, we will consider it an amended annual list for the previous year.

Fee Calculation

To calculate the filing fee, you will need the total number of your shares and their par value. Fees are calculated in the following ways:

- total authorized shares multiplied by their par value or;
- total authorized shares without par value multiplied by \$1.00 or;
- the sum of (a) and (b) above if both par and no par shares.

Filing fees are calculated on a minimum par value of one-tenth of a cent (.001), regardless if the stated par value is less.

The expedite period begins when we receive your filing.

We reserve the right to extend the expedite period in times of extreme volume, staff shortages, or equipment malfunction. These extensions are few and will rarely extend more than a few hours.

When a record is officially filed: A record is officially filed when we can successfully process it in our office. This means there are no errors or other issues with your filing preventing us from filing them.
